

Dear Mr. Milstein,

I am the President and CEO of the Inglis Foundation. We are a not for profit organization that serves over 900 persons with disabilities across the region. In addition, I am the chairman of the board of the Pennsylvania Center for Adapted Sports.

We hear constantly about the challenges that our consumers face finding consistent, affordable accessible transportation. The SEPTA CCT program is an important program but can only meet a small portion of the need for wheelchair users and others. People who, like you and me, need to get to work, engage in community activities or enjoy time with family and friends. But, unlike you and me, cannot just hail a cab or hop in the car to go someplace. On behalf of our entire Inglis community, our adapted sports athletes and people with disabilities across the region, please make the proposed cab regulations a reality.

Please don't hesitate to call if I can help in anyway.

Gavin
